Custom Recreational Ice Systems

Berg custom designs, manufactures, and services recreational ice refrigeration systems using both natural and synthetic refrigerants.

- **Engineered to your exact requirements**
- **Optimized for your facility**
- **Energy-saving efficiency**
- **Built-up or skid-mounted**
- **Turnkey start-up and operation**
- **24/7 expert service**

ALL-STAR LINE-UP

With over 45 years of pro experience, Berg builds new ice rinks, retrofits existing ones, and services all systems. Their gritty two-way game includes top line skill with both natural and synthetic refrigerants. A true all-rounder, Berg ice rink systems are known for their toughness, puck smarts, and ability to go the distance season after season.
