

Project:
Custom Process Cooling Solution

Client: Material Sciences
Corporation

Year: 2019

Solution: Custom Portable Chiller
& TCU for a paint application
facility

Features:

- One 4.6TR portable chiller
- R407C refrigerant
- One scroll type compressor
- One condenser
- One evaporator
- One Temperature Control Unit
- Freight to site

Highlights:

-  Custom Engineered
-  Installation
-  Factory Tested
-  Skid Mounted
-  Air-Cooled
-  Start-up

Custom process cooling solution for heating and cooling a paint application facility. Scope of supply included one 4.6TR portable chiller charged with R407C refrigerant, one scroll type compressor, one condenser, one evaporator, one Temperature Control Unit, PLC controls, start-up, installation and freight to site.
