Project:
Custom Chiller Packages

Client: StormFisher
Environmental Ltd.

Year: 2023

Solution: Custom Outdoor Air-
Cooled Chiller Plants

Features:

- Two 91.8TR Outdoor Air-Cooled Chiller Packages
- Charged with R407c
- One water cooled air compressor
- Four screw compressors
- Four chiller vessels
- Two air cooled dual circuit condenser
- Four refrigerant receivers
- Head pressure control
- Electrical Control Panel
- Freight to site

Highlights:

-  Air-Cooled
-  Custom Engineered
-  Factory Tested
-  PLC System
-  Touch Screen HMI
-  Start-up

Supply of Outdoor Air-Cooled Chiller Plants for a waste management service provider to cover four cooling processes. Scope of work included: Two 91.8TR Outdoor Air-Cooled Chiller Packages charged with R407c, one water cooled air compressor, each chiller included two screw compressors, two chiller vessels, one air cooled dual circuit condenser, two refrigerant receivers and head pressure control, Electrical Control Panel, and PLC system with touch screen HMI, Freight to site, Start-up, factory-testing.
